

The new Empire of southern Africa passes the [White Genocide](#) as simple criminality. To support this thesis, when the victim is white and the executioner is black the (nationality and the) race of the people involved are usually kept hidden. With the excuse of don't want promote "racism" (at least that not [politi](#)
[cally correct](#)), has become common practice to hide the truth, even a racist Genocide. That's why the White Genocide is hidden also in the West, and that's why the West is its accomplice.

The White Genocide in southern Africa continues unabated. Below one of the last cases: the **Naauihoek Farm massacre**

Deon Steenkamp (44 y.o.), a white farmer, his wife Christelle (43 y.o.) and 14-year-old daughter Marthella were killed on a farm near Griekwastad (in the northern Cape between Kimberley and Upington) on Friday, April 6, 2012. The bodies were found at Naauihoek Farm at around 18:00. The victims were all shot, and were discovered by the couple's 16-year-old son Don. Don found his sister still alive and that she died in his arms.
