

Between 8 and 10 October 2010 at Nampo Park, near Bothaville in the Orange Free State, there was been a meeting organized by the Gelooftevolk Koördineringskomitee (GKK, Coordinating Committee of the Gelooftevolk - tied to [Theocracy Committee](#) ). In that meeting was presented and reviewed the Report of the Theocracy Committee, ordered in the 2009. The meeting was also attended by: Gustav Muller of Suidlanders; Frans Jooste of Kommandokorps; and Dr. [Lets Pretorius](#) .

The meeting had the explicit view that the only way to change things and restore freedom for the Boer nation is by humbling themselves before their heavenly Father. To revolt against the government is to revolt against His judgment.

Frans Jooste invited people to mobilize themselves against attacks that are exterminating whites (and particularly the Boers) in southern Africa. Someday they may have to mobilize for the struggle for independence.

The meeting has disappointed many. The attendance was below expectations and showed strong presence of supporters of the "True Israel" idea, in disagreement with some arguments of the Theocracy Committee.

The assembly, as defined, has appointed committees to continue to develop its project.
